Archangel Zerachiel's name means "God's command". He is a powerful soul healer, who helps to release painful memories, addictions, and destructive behaviours. If you carry a lot of anger and pain from your childhood, especially towards people who raised you, your family and school systems, Archangel Zerachiel will lead you to a healing path. He will empower you to love and accept yourself unconditionally, and help those who are going through the same issues. You are stronger than you think.
